

## Changing ScreenSaver Settings Tutorial #8

### Changing Screen Saver Settings

#### What is a screen saver?

The screen saver is a customized setting. The screen saver comes on after a period of time that the computer is not in use. A screen saver can be changed to text, photos or a moving image. To change the screen saver to a moving image you:

- (1) Right click on the main desktop
- (2) Left Click on "Properties."
- (3) Left click on "Screen Saver"
- (4) Left click on the screen saver drop box
- (5) Select your preferred setting
